

Invariant

for REMS

Through Invariant's innovative platform, gain access to a connected ecosystem of program stakeholders, centered around the patient. Leveraging a single, integrated platform creates greater efficiency and a better stakeholder experience as compared to the traditional approaches.

With Invariant's unique REMS solution:

- Leverage an existing network of patients, providers, and pharmacists
- Seamlessly connect to vital REMS infrastructure through integrated workflows, including for prescribers and pharmacists
- Realize significant cost savings through streamlined certification and enrollment
- Reduce delays and enhance accuracy with simple, automated form completion
- Be ensured that the right information is going to the right person, when they need it – no more delays in receiving important safety information or the data you need for ongoing program evaluation

Invariant's platform is secure and compliant, meeting industry standards (e.g., Title 21 CFR Part 11) and backed by patented security. Giving you the best solution for a fraction of the cost of a traditional REMS program.

Building innovative technology into REMS doesn't have to be expensive. Invariant's solution seamlessly connects with existing workflows and reduces contact center burden. That's where Inara, Invariant's intelligent assistant, comes in. Inara is always ready to help and supports program stakeholders inside and out of the contact center.

Experience the power of Invariant.
