

# Invariant

## for REMS

Revolutionize REMS and reduce stakeholder burden while promoting patient safety and access. With Invariant, gain access to a connected ecosystem of program stakeholders in a secure and compliant platform that meets industry standards and is backed by patented technologies.

Building innovative technology into REMS doesn't have to be complicated. Invariant's solution seamlessly connects with existing workflows and reduces stakeholder & contact center burden.

- Leverage an existing network of patients and prescribers.
- Seamlessly connect to vital REMS infrastructure through integrated workflows.
- Reduce manual tasks, delays, and errors with automated forms and data sharing.
- Minimize contact center expenses with Inara, our intelligent AI who is always available to support program stakeholders inside and out of the contact center.

Invariant's multitenant platform significantly reduces operational costs as services can be configured to accommodate a wide range of use cases, even across multiple programs within an organization.

Intentionally designed to accommodate tight launch timelines and mitigate the cost of maintenance, Invariant's platform creates greater efficiency and a better overall experience as compared to traditional approaches.

Unlock the full potential of your REMS program with Invariant's comprehensive platform, empowering you to maximize value and elevate patient safety.
